## SUMMARY

A motivated and proactive learner pursuing a BTech in Information Technology, specializing in JAVA and Web Development. With a strong foundation in Python fundamentals, I completed my high school education at Cathedral Mission High School. I have demonstrated leadership skills through successful campus activities and have learned from a failed event, enhancing my problem-solving abilities. As a supportive and aspiring individual, I prioritize excellence and punctuality in all my endeavors. Additionally, I am the proud founder of two organizations, showcasing my entrepreneurial spirit and drive for innovation. Committed to social causes, I actively contribute to NGOs and engage in independent social activism to make a positive impact on society and foster personal growth.

## TECHNICAL SKILLS

**Languages:** Java, HTML, CSS, JavaScript

**Subjects:** DSA, OS, DBMS

**Developer Tools:** GitHub, Visual Studio Code, Canva, Figma, Premier Pro, ShotCut.

## EXPERIENCE

### As an Organizer

#### Volunteered in various NGOs and Organizations

Kolkata, IN

- Volunteered under the umbrella of KUSHUM EK PRERNA and HELPING HAND NGO as Graphic Designer, PR Member, Event report writer and Volunteer.

### Teaching and Mentoring

- Taught various students after my HS and mentored over 200+ students via seminars and webinars
- Being the lead if Clubs in college mentored my juniors and mates on various things.

## PROJECTS

### EDC's site - it is my college's ED cell's website

Kolkata, IN

- This was a static website containing all the infos of EDC, BBIT, including the events infos, members details etc...
- Used HTML, CSS and JavaScript for designing and it was a responsive website too.

### 2 Different static websites

– as freelancer I have developed 2 different websites one for an NGO and 2<sup>nd</sup> a simple Portfolio

### Smart Attendance Monitoring System – This was developed in a group at a 36hr Hackathon (DIVERSION'24) [LINK](#)

- Face Recognition Attendance System for students. Capture faces match against database, and generate attendance Excel sheets Implement with efficiency, storing data in a database
